*Note – Do not Extract the Firmware update file to any sub-folder on the USB memory device. The Firmware update file must be in the root directory.

- Before removing your USB memory device from the computer, ensure that you "Safely Remove" it. Click on the icon that appears like this:
 and is labeled "Safely Remove Hardware".
- 5. A small submenu will appear saying: "Stop USB Mass Storage Device" (a series of Drive letters may also be listed). A confirmation screen should appear, letting you know it is safe to remove the USB memory device.

Safe To Remove Hardware					
٩	The 'USB Mass Storage Device' device can now be safely removed from the system.				
	OK				

- 6. Physically remove your USB memory device from the USB port on your computer.
- 7. Follow the steps on the next page to perform the Firmware Upgrade of your Sharp AQUOS ® LCD TV.

LC32BD60U, LC37BD60U LCD TV Software Update Instructions

Software Update

This function allows software updates by inserting a USB memory device with the update file into the SERVICE terminal on the TV.

To check for the availability of a software update, visit www.sharpusa.com. If you have any questions, please call 1-800-BE-SHARP (800-237-4277).

CAUTION

- Do not remove the USB memory device or unplug the
- AC cord while the software is being updated.
 Be sure to properly follow the whole procedure described below, step by step. Otherwise, for example, the TV cannot read the data in the USB memory device and software updating will fail.
- 1 Insert the USB memory device with the update file into the SERVICE terminal on the TV.

- 2 Press MENU to display the MENU screen, and then press /> to select "Option".
- 3 Press ▲/▼ to select "Software Update", and then press ENTER.
 - If you have already set the Secret No., go to step 4.

4 Input the 4-digit secret number by using 0-9.

5 Press ENTER to start checking the data in the USB memory device.

6 During the data checking, "Checking" blinks.

 The current version of the TV software and the version of the update file on the USB memory device are displayed. To update the TV software with the update file, select "Yes", and then press ENTER.

 If the USB memory device is not properly installed or the correct update file cannot be found on the USB memory device, an error message is displayed.
 Check the file on the USB memory device, and then reinsert the USB memory device correctly.

LC32BD60U, LC37BD60U LCD TV Software Update Instructions

- 7 Press ENTER to start updating.
 - The screen becomes dark for a while until the update screen can be displayed. Please wait for the update screen to appear. Do not unplug the AC cord.

The picture will temporarily go dark untii the Software Update display appears. Wait several minutes and do not unplug the AC cord.

30%

CAUTION

- Do not remove the USB memory device or unplug the AC cord while the software is being updated.
- 8 When the software is successfully updated, a screen is displayed indicating that the update process is completed.

After this screen is displayed, the TV automatically turns off and then turns on again.

Example

9 After the screen shown below is displayed, press ENTER.

10 Remove the USB memory device.
