*Note – Do not Extract the Firmware update file to any sub-folder on the USB memory device. The Firmware update file must be in the root directory.

- Before removing your USB memory device from the computer, ensure that you "Safely Remove" it. Click on the icon that appears like this:
 and is labeled "Safely Remove Hardware".
- 5. A small submenu will appear saying: "Stop USB Mass Storage Device" (a series of Drive letters may also be listed). A confirmation screen should appear, letting you know it is safe to remove the USB memory device.

Safe To Remove Hardware				
٩	The 'USB Mass Storage Device' device can now be safely removed from the system.			
	OK			

- 6. Physically remove your USB memory device from the USB port on your computer.
- 7. Follow the steps on the next page to perform the Firmware Upgrade of your Sharp AQUOS ® LCD TV.

Software Update

This function allows software updates by inserting a USB memory device with the update file into the USB terminal on the TV.

To check for the availability of a software update, visit www.sharpusa.com. If you have any questions, please call 1-800-BE-SHARP (800-237-4277).

3

- Do not remove the USB memory device or unplug the AC cord while the software is being updated.
- Be sure to properly follow the whole procedure described below, step by step. Otherwise, for example, the TV cannot read the data in the USB memory device and software updating will fail.
 - **1** Insert the USB memory device with the update file into the USB terminal on the TV.

- Press **MENU** to display the MENU screen, and then press **◄**/**▶** to select "Digital Setup".
 - Press \blacktriangle/Ψ to select "Software Update", and then press **ENTER**.
 - If you already set the Secret No., go to step 4.

5 Press **ENTER** to start checking the data in the USB memory device.

Insert the USB memory device containing the software update file.
OK

6 During the data checking, "Checking" blinks.

Now check	ng the data in the USB memory device.	
	Checking	

 The current version of the TV software and the version of the update file on the USB memory device are displayed. To update the TV software with the update file, select "Yes", and then press ENTER.

 If the USB memory device is not properly installed or the correct update file cannot be found on the USB memory device, an error message is displayed.

Check the file on the USB memory device, and then reinsert the USB memory device correctly.

Software update file is not detected in the USB memory device. Confirm that you have transferred the file to the USB memory device and retry software update.
There is more than one software file in the USB memory device. Confirm that only the software update file is in the USB memory device.
